9	Vikas	Male	31	60000	Mumbai	104	5	2020-05-16	NULL
10	Anjali	Female	24	38000	Pune	105	8	2023-04-01	anjali@gmail.com
11	Arjun	Male	29	52000	Hyderabad	106	5	2021-11-11	arjun@gmail.com
12	Meera	Female	33	69000	Chennai	107	5	2019-08-21	meera@gmail.com
13	Vivek	Male	27	45000	Mumbai	101	1	2022-06-18	vivek@gmail.com
14	Nisha	Female	31	58000	Delhi	103	3	2020-10-05	NULL
15	Akash	Male	26	41000	Pune	102	2	2023-01-08	akash@gmail.com
16	Kavita	Female	34	76000	Bangalore	105	5	2018-03-14	kavita@gmail.com
17	Suresh	Male	38	92000	Hyderabad	106	NULL	2017-12-01	suresh@gmail.com
18	Deepa	Female	29	51000	Mumbai	104	5	2021-04-19	deepa@gmail.com

19	Mohit	Male	28	47000	Chennai	107	12	2022-07-11	NULL
20	Riya	Female	25	39000	Delhi	103	3	2023-05-22	riya@gmail.com

Below are **25 interview/exam-style SQL practice questions** based on the following tables:

- **Employee**
- **Department**

The questions are **randomly mixed** so students must identify which SQL concepts to use. These cover:

- WHERE operators (AND, OR, NOT, IN, NOT IN, BETWEEN, IS NULL, IS NOT NULL)
 - GROUP BY
 - HAVING
 - ORDER BY
 - LIMIT
 - Combination queries (GROUP BY + HAVING + ORDER BY + LIMIT)
 - INNER JOIN
 - LEFT JOIN
 - RIGHT JOIN
-

SQL Practice Questions

Sr. No.	Practice Question
1	Display the names and salaries of employees whose salary is greater than ₹50,000 and whose city is Mumbai .
2	Display the names of employees along with their department names using an INNER JOIN .
3	Display all employees whose city is either Mumbai , Delhi , or Pune using the appropriate operator.
4	Show the total number of employees working in each department.
5	Display departments having more than 2 employees .
6	Display all employees and their department names, including employees who are not assigned to any department (LEFT JOIN).
7	Find the top 3 highest-paid employees .
8	Display employees whose salary is between ₹40,000 and ₹70,000 . Sort the result in descending order of salary.
9	Show the department names and the average salary of employees in each department.
10	Display all departments even if no employee is assigned to them (RIGHT JOIN).
11	Display employees whose email address is NULL .
12	Find the departments whose average salary is greater than ₹55,000 , sort by average salary in descending order, and display only the top 2 departments .
13	Display employees whose department is not HR or IT.
14	Find the total salary paid in each city and display only those cities where the total salary exceeds ₹1,00,000 .

15	Display employee names, department names, and department locations using an INNER JOIN .
16	Show all employees whose age is not between 25 and 30 years .
17	Display the names of employees who do not belong to Department IDs 101, 102, and 103 .
18	Find the highest salary in each department. Sort the result by highest salary in descending order.
19	Display departments having at least 2 employees , order the results by employee count in descending order, and display only the first 3 records .
20	Display all employees whose email address is not NULL and whose salary is greater than ₹45,000 .
21	Display employee names and department names for employees working in departments located in Mumbai .
22	Find the number of male and female employees separately. Display the results in descending order of employee count.
23	Display employees whose city is Mumbai OR whose salary is greater than ₹70,000 . Sort by salary in descending order.
24	Find the average salary of employees in each city. Display only cities whose average salary is greater than ₹50,000 , order the results in descending order of average salary, and display the top 2 cities .
25	Display every department along with the number of employees working in it. Include departments that have no employees using an appropriate join.
